01 CRUSHED STONE

SIZE: 10mm, 20mm, 40mm

- High strength & durability
- Ideal for concrete, road construction & foundations
- Properly graded & consistent quality
- Clean & dust free

Our crushed stone is produced using advanced crushing technology to ensure superior strength and long-lasting performance.

02 SOLING STONE

SIZE: 40mm & Above

- Strong & hard wearing
- Ideal for soling, pathways, drainage & filling
- Enhances stability & load bearing
- Economical & reliable

Soling stone provides excellent stability and is widely used in construction, roads, and infrastructure projects.

03 PAVER BLOCKS

VARIETY: Zigzag, I-Shape, Rectangular, Square

- High compressive strength
- Perfect finish & uniform size
- Suitable for driveways, walkways & landscaping
- Long lasting & low maintenance

Our paver blocks are designed for strength, aesthetics and durability. Perfect for all types of residential and commercial spaces.

04 M-SAND

TYPE: Manufactured Sand

- High quality & finely graded
- Ideal for plastering & concrete works
- Better workability & smooth finish
- Eco-friendly & sustainable

M-Sand is a superior alternative to river sand. It ensures better bonding, strength and a smooth surface finish.

05 GRAVEL

SIZE: 20mm, 40mm, 60mm

- High strength & durability
- Ideal for concrete, drainage & landscaping
- Improves stability & load distribution
- Clean, hard & well graded

Gravel is widely used in concrete, roads, drainage and landscaping. It offers excellent stability and long service life.
